Experience

RocketJump, Inc. / Full-Stack Software Engineer

2012 - PRESENT / BURBANK, CA

- Built and deployed new content distribution platform and identity service to support consumption by an audience of 8MM.
- Productionized and maintained four fault-tolerant, distributed web services on AWS.
- Directly mentored by the CTO, an ex-Google Senior Engineer.

Digital Attic / Software Engineer

2010 - 2013 / CLOVIS, CA

- Frontend and backend development for numerous high-traffic projects such as Save Mart / Lucky Supermarkets, FoodMaxx, and PBS.

Reverie World Studios / Lead QA Tester

2009 - 2011 / ONTARIO (REMOTE)

- Managed a team of quality assurance testers during the development of the PC MMORTS, Dawn of Fantasy.
-

Education

California State University - Long Beach / English Education

2011 - 2016
